SEO & AI SEARCH PROPOSAL

Gandum Uluwatu

Boutique Stay · Restaurant · Spa

Monthly SEO, Local SEO & AI Search Optimisation (GEO / AEO / LLM SEO), with a 90-Day Growth Plan

Website: gandumuluwatu.com

Prepared for: Gandum Uluwatu Management

Prepared by: [Your Name / Agency Name]

Date: 18 October 2026

Proposal valid until: 17 November 2026

Contents

(If the contents list appears empty, right-click it in Word and choose "Update Field".)

1. Executive Summary

Gandum Uluwatu runs three businesses from one website: the Boutique Stay, the Restaurant and the Spa, each with its own Google Business Profile. That gives you three ways to be found: in Google search, in Google Maps, and in the answers given by AI assistants such as ChatGPT, Gemini, Perplexity and Google AI Overviews.

This proposal sets out one SEO and AI-search programme covering all three businesses. Its goal is more direct room bookings, more restaurant guests and more spa appointments, not just higher rankings.

What we will do

- **Fix the foundation:** tracking, technical health, schema markup, and a clean-up of the backlink profile.
- **Win local search:** fully optimise and actively manage all three Google Business Profiles to grow Maps visibility.
- **Publish with a plan:** 10 SEO blog articles per month, built around topic clusters that answer the questions travellers ask before they book.
- **Build authority:** 100 backlinks and mentions per month from a balanced mix of sources.
- **Get cited by AI:** structure the website and content so AI assistants can understand, trust and recommend Gandum Uluwatu.
- **Stay transparent:** every working sheet is shared with you live, nothing goes live without your approval, and you get a full report every month.

2. Where You Stand Today

Baseline from Semrush, Domain Overview for gandumuluwatu.com (Worldwide, desktop, 17 October 2026):

Metric	Current value	What it means
Authority Score	9 / 100	Low. Google sees limited trust in the domain.
Organic traffic (est.)	6 visits / month	Almost no visitors come from Google search today.
Organic keywords	96 (+13%)	Some rankings exist, but few are in positions that bring clicks.
Referring domains / backlinks	1.3K / 1.4K	Many links but low authority. These links are likely low quality and need an audit.
Paid traffic	0	No paid search activity.
AI Visibility	14	Low presence in AI answers.
AI mentions	2 (ChatGPT 1, Gemini 1)	AI assistants rarely mention the brand.
AI cited pages	5 (AI Overviews 2, AI Mode 1, Gemini 2)	A small base to build on.

Key insight

The domain has more than 1,300 referring domains but an Authority Score of only 9. That usually means most of the existing links are low quality or spammy, so they add little value and can hold the site back.

Month 1 therefore starts with a backlink audit and clean-up (disavowing toxic links where needed) before new links are built. New authority should go toward a clean profile.

Semrush figures are third-party estimates. We will confirm the real baseline from your Google Search Console, GA4 and Google Business Profile data in the first week.

3. Scope of Work

3.1 On-Page SEO

- Keyword research and mapping a target keyword to every key page (Stay, Rooms, Restaurant, Menu, Spa, Treatments, Contact)
- Meta titles and descriptions written for click-through
- Heading structure (H1–H3), content optimisation and FAQ sections
- Internal linking between the Stay, Restaurant, Spa and blog pages
- Image optimisation: compression, WebP, file names and alt text
- Clear calls to action that lead to booking, reservation and treatment enquiries

3.2 Technical SEO

- Full technical audit: crawlability, indexing, broken links, redirects, duplicate content and sitemaps
- Page speed and Core Web Vitals, mobile optimisation
- Schema markup: Hotel / LodgingBusiness, Restaurant (with menu), DaySpa, Organization, FAQ, Review and Breadcrumb
- Google Search Console and Bing Webmaster Tools set-up and monitoring
- Backlink audit and disavow file for toxic links

3.3 Content SEO

- 10 SEO-optimised blog articles per month (1,200–2,000 words each, written by people, edited for accuracy)
- Keyword research for blogs and for landing pages, kept as two separate plans (see sections 4 and 5)
- Content gap analysis against competing hotels, restaurants and spas in Uluwatu
- Landing page recommendations, e.g. “Honeymoon Stay”, “Couples Massage” and “Breakfast in Uluwatu”

3.4 Local SEO: 3 Google Business Profiles

- Complete optimisation of all three profiles: categories, services, menu, treatments, attributes, descriptions, photos and Q&A
- 10 Google Business Profile posts per month (offers, events, menu highlights, spa specials)
- Review-generation strategy and reply templates
- NAP (name, address, phone) consistency across all directories, plus Bing Places and Apple Business Connect
- Local citations on travel, food and wellness directories

3.5 Off-Page SEO: 100 Backlinks per Month

Link type	Per month	Purpose
Business listings & local citations	30	Local trust and consistent NAP for Maps rankings
Web 2.0 properties	20	Branded content hubs that link to key pages
Article submissions	15	Topic-relevant contextual links
High-authority platform publishing (Medium, LinkedIn, Substack, Quora, etc.)	15	Branded visibility on platforms that AI assistants often cite
Free guest posts (travel / food / wellness)	10	Relevant editorial links
PR submissions	10	Brand mentions and news-style coverage
Total	100	

All links point to relevant pages and use natural anchor text. Every link is logged in a shared sheet with its URL, type, target page and date.

3.6 AI Search Optimisation (AI SEO, LLM SEO, AEO, GEO)

- AI visibility baseline: track a fixed set of prompts (e.g. “best boutique hotel in Uluwatu”, “best spa in Uluwatu”) across ChatGPT, Gemini, Perplexity and Google AI Overviews
- Answer-first content: clear, quotable answers, FAQ blocks and comparison tables that AI assistants can lift
- Entity building: consistent brand facts across the website, Google, TripAdvisor, booking sites and directories, so AI models know who you are
- Getting listed on “best of Uluwatu” articles and listicles, which AI assistants often use as sources
- Bing optimisation, since ChatGPT search relies heavily on Bing’s index
- An llms.txt file and AI-crawler access checks
- Monthly AI visibility tracking: mentions, citations and share of voice compared with competitors

3.7 Competitor Research

- Identify the top competitors for each business (stay, restaurant, spa) in search, Maps and AI answers
- Compare their keywords, backlinks, content and Google Business Profiles to find quick wins and gaps

3.8 Tracking, Reporting & Transparency

- Set up all tracking tools: GA4 (with booking, reservation, WhatsApp and call-click events), Google Search Console, Bing Webmaster Tools, rank tracker and AI-visibility tracker
- Monthly report sheet: keyword rankings, website traffic, GA4 and GSC reports, Google Business Profile insights, backlinks built and AI visibility
- A live dashboard you can check at any time
- All working and reporting sheets are shared with you, and you have access to them throughout the project
- Nothing is published, on the website or anywhere else, until you have reviewed and approved it

4. Keyword Strategy: Website & Landing Pages

These are commercial, “ready to book” keywords. They are targeted by the core website pages and new landing pages, not by blog articles. Search volumes and difficulty will be confirmed in Month 1 keyword research.

4.1 Boutique Stay

Target keyword	Target page	Intent
boutique hotel Uluwatu	Home / Stay page	Book
where to stay in Uluwatu	Stay page	Compare & book
Uluwatu accommodation	Stay page	Book
boutique villa / guesthouse Uluwatu	Rooms page	Book
hotel near Uluwatu Temple / beaches	Location section	Book
Uluwatu honeymoon stay	New landing page	Book
hotel with pool Uluwatu	Rooms page	Book
Gandum Uluwatu (brand)	Home page	Brand

4.2 Restaurant

Target keyword	Target page	Intent
restaurant Uluwatu	Restaurant page	Visit
best restaurants in Uluwatu	Restaurant page	Compare & visit
breakfast / brunch Uluwatu	New landing page	Visit
dinner in Uluwatu	Restaurant page	Visit
Indonesian / Balinese food Uluwatu	Menu page	Visit
healthy / vegan food Uluwatu	Menu page	Visit
romantic dinner Uluwatu	New landing page	Visit
restaurant near me (Uluwatu, via Google Maps)	Restaurant Google profile	Visit

4.3 Spa

Target keyword	Target page	Intent
spa Uluwatu	Spa page	Book
massage Uluwatu	Spa page	Book
best spa in Uluwatu	Spa page	Compare & book
Balinese massage Uluwatu	Treatments page	Book
couples massage Uluwatu	New landing page	Book
spa packages Uluwatu / Bali	Treatments page	Book
body scrub / lulur Uluwatu	Treatments page	Book
post-surf massage Uluwatu	New landing page	Book

5. Keyword Strategy: Blog Content Plan (Months 1–3)

Blog keywords are informational: questions travellers ask before choosing where to stay, eat or relax. They are kept separate from the website keywords on purpose, so blog posts never compete with the booking pages. Instead, every article links to the relevant booking page.

These topics are also the questions AI assistants are asked most, so each article uses an answer-first structure, FAQs and clear facts to improve the chance of being cited.

Month 1: Uluwatu Travel Foundations

#	Blog title	Primary keyword	Supports
1	Where to Stay in Uluwatu: Complete Area Guide (2026)	where to stay in Uluwatu	Stay
2	Best Things to Do in Uluwatu	things to do in Uluwatu	All
3	Uluwatu Temple & Kecak Fire Dance: Tickets, Times & Tips	Uluwatu Temple Kecak dance	Stay
4	Best Beaches in Uluwatu: Padang Padang, Bingin, Melasti & More	best beaches in Uluwatu	Stay
5	Where to Eat in Uluwatu: A Local Food Guide	where to eat in Uluwatu	Restaurant
6	Traditional Balinese Massage: What to Expect	Balinese massage	Spa
7	How to Get from Bali Airport to Uluwatu	Bali airport to Uluwatu	Stay
8	Best Time to Visit Uluwatu (Month-by-Month)	best time to visit Uluwatu	Stay
9	Couples Spa Day in Uluwatu: Ideas & Packages	couples spa Uluwatu	Spa
10	Uluwatu Surf Guide for Beginners	Uluwatu surf beginners	Stay / Spa

Month 2: Experiences & Comparisons

#	Blog title	Primary keyword	Supports
11	Uluwatu Honeymoon Guide: Stay, Dine & Unwind	Uluwatu honeymoon	All
12	The Perfect 3-Day Uluwatu Itinerary	Uluwatu itinerary	All
13	Best Sunset Spots in Uluwatu	Uluwatu sunset	Stay / Restaurant
14	10 Balinese Dishes You Must Try	Balinese food	Restaurant
15	Breakfast & Brunch in Uluwatu: A Guide	brunch Uluwatu	Restaurant
16	Balinese Lulur & Boreh Scrubs: Benefits Explained	Balinese lulur scrub	Spa
17	Post-Surf Recovery: Why a Massage Helps	massage after surfing	Spa
18	Uluwatu vs Canggu vs Seminyak: Where Should You Stay?	Uluwatu vs Canggu	Stay
19	Is Uluwatu Worth Visiting? Honest FAQ	is Uluwatu worth visiting	Stay
20	Workation in Uluwatu: A Guide for Digital Nomads	Uluwatu digital nomad	Stay

Month 3: Niche Audiences & Wellness

#	Blog title	Primary keyword	Supports
21	Family-Friendly Uluwatu: Where to Stay & What to Do	Uluwatu with kids	Stay
22	Vegetarian & Vegan Food in Uluwatu	vegan Uluwatu	Restaurant
23	Romantic Dinner Ideas in Uluwatu	romantic dinner Uluwatu	Restaurant
24	First Time at a Bali Spa? Etiquette & FAQ	Bali spa etiquette	Spa
25	Balinese vs Thai vs Deep Tissue Massage: Which to Choose?	types of massage Bali	Spa
26	Uluwatu in Rainy Season: Is It Still Worth It?	Uluwatu rainy season	Stay
27	Best Day Trips from Uluwatu	day trips from Uluwatu	Stay
28	A Wellness Weekend in Uluwatu: Stay + Spa Guide	wellness retreat Uluwatu	Stay / Spa
29	Uluwatu Beach Clubs & Nightlife Guide	Uluwatu beach clubs	Stay
30	Uluwatu on a Budget vs Luxury: Costs Compared	Uluwatu travel cost	Stay

Titles and keywords are the initial plan. They will be refined after the Month 1 keyword research and content gap analysis, and every article is sent to you for approval before it is published.

6. 90-Day Strategy & Roadmap

Month 1: Foundation & Fix

- Onboarding, access collection and set-up of all tracking (GA4 events, GSC, Bing, rank tracker, AI-visibility tracker, dashboard)
- Full technical SEO audit and the first round of fixes
- Backlink audit and toxic-link disavow
- Competitor research for the stay, restaurant and spa
- Keyword research and mapping for the website and the blog
- Full optimisation of all 3 Google Business Profiles
- Schema markup for the Hotel, Restaurant and Spa
- On-page optimisation of core pages
- AI visibility baseline report
- 10 blogs, 100 backlinks, 10 Google Business Profile posts

Month 2: Build & Expand

- Content gap analysis, then new landing page recommendations
- Internal linking structure across all pages and blogs
- AEO/GEO upgrades: FAQ blocks, answer-first rewrites of key pages, llms.txt
- Entity consistency across TripAdvisor, booking sites, Bing Places and Apple Business Connect
- Review-generation system for all 3 businesses
- 10 blogs, 100 backlinks, 10 Google Business Profile posts

Month 3: Authority & AI Visibility

- Outreach for inclusion in “best of Uluwatu” articles and listicles
- PR and brand-mention push; reclaiming unlinked brand mentions
- Refresh and improve the best-performing pages and blogs
- Booking-conversion review (CTAs, WhatsApp and booking flow)
- Quarterly review and a strategy plan for months 4–6
- 10 blogs, 100 backlinks, 10 Google Business Profile posts

90-Day Targets

KPI	Today	Target by Day 90
Organic keywords	96	250+
Authority Score	9	15+
AI mentions (tracked prompts)	2	10+
Google Business Profile completeness	Not yet audited	100% on all 3 profiles
Published SEO blogs	—	30
New quality backlinks	—	300
Tracking & reporting	Not yet audited	Fully set up & live

These are directional targets, not guarantees. SEO results depend on search-engine algorithms, competition and how quickly approvals and website changes happen. SEO compounds over time, and the strongest gains in traffic and bookings usually come from months 4 to 6 onwards.

7. Monthly Packages & Pricing

Three packages are available. All of them cover the Boutique Stay, Restaurant and Spa on one website, plus all three Google Business Profiles. Horizon is the recommended package and includes the full scope described in this proposal.

Deliverable	Sunrise Foundation	Horizon Growth (Recommended)	Summit Market Leader
Monthly investment (USD)	$549	$899	$1,499
SEO blog articles / month	5	10	15
Backlinks / month	50	100	150
Google Business Profile posts / month	6	10	15
Optimisation of all 3 Google Business Profiles	✓	✓	✓
Keyword research (blogs + landing pages)	✓	✓	✓
Competitor research	Top 3 overall	Top 5 per business	Top 5 per business + quarterly deep dive
Technical SEO audit & fixes	Audit + key fixes	✓	✓
On-page SEO & schema markup	✓	✓	✓
Backlink audit & disavow	✓	✓	✓
AI SEO / LLM SEO / AEO / GEO	Basic (schema + FAQ)	Full	Full + listicle outreach
Content gap analysis	—	✓	✓
AI visibility tracking	Quarterly	Monthly	Monthly + competitor share of voice
New landing pages / month	—	1	2
Review-generation system	—	✓	✓
Digital PR outreach (earned media)	—	—	✓
Booking-conversion optimisation	—	—	✓
Tracking set-up (GA4, GSC, Bing, rank tracker)	✓	✓	✓
Monthly ranking & traffic report sheet	✓	✓	✓
GA4 & GSC traffic reports	✓	✓	✓
Live shared working sheets & dashboard	✓	✓	✓
Client approval before anything is published	✓	✓	✓
Strategy call	Monthly email summary	Monthly call	Bi-weekly call
Support	Email	Email + WhatsApp	Priority, same day

Onboarding & Audit (One-Time)

Includes the full technical audit, backlink audit, competitor research, keyword mapping and tracking set-up. Fee: $249. This fee is waived for clients who commit to 3 months or more.

Prepayment Discount

Pay for 3 months in advance and get 7% off the package price.

Additional Costs (Only If You Choose Them)

There are no hidden costs. The monthly package covers all the work and the SEO tools. The items below are optional and always quoted and approved by you before any money is spent:

- **Paid guest posts:** placements on high-authority travel, food and wellness sites. Priced per placement according to the site's authority (typically $50–$500+ per post). Charged at cost.
- **Paid PR:** press-release distribution or sponsored features in travel and lifestyle media, priced per campaign.
- **Website development:** design or development work beyond SEO fixes (e.g. a redesign or a new booking engine), quoted separately.
- **Photography / video:** new professional photos or video for the website and Google profiles.
- **Paid advertising budget:** Google Ads or Meta Ads spend, if added later.

8. Terms & Conditions

8.1 Payment Terms

- **35% upfront:** paid at the start of each monthly cycle, before work begins. The first payment confirms the project start date.
- **65% balance:** paid at the end of each monthly cycle, calculated from the project start date (for example, a project that starts on the 5th has its cycle end on the 4th of the following month).
- Invoices are payable within 5 days. Work may be paused if a payment is more than 7 days late, and resumes once it is paid.
- All prices are in USD. Bank, transfer and currency-conversion fees, and any applicable taxes, are paid by the client.

8.2 Engagement Term

- Initial commitment of 3 months, matching the 90-day plan. After that, the engagement continues month to month.
- Either party may end the engagement with 15 days' written notice before the next cycle begins. Work completed up to that date is billed in full.
- You may move to a different package at the start of any new monthly cycle.

8.3 Approvals & Content

- Nothing is published on the website, Google Business Profiles or any third-party platform without your review and approval.
- Please send approval or feedback within 3 business days. If approvals are delayed, the affected deliverables move into the next cycle and are not lost.
- Each deliverable includes up to 2 rounds of revisions.
- Once the related payment is complete, all content created for you belongs to Gandum Uluwatu.

8.4 Access & Responsibilities

- The client provides access to the website (CMS), GA4, Google Search Console and all three Google Business Profiles within the first week.
- The client provides accurate business information, photos, menus, treatment details and offers.
- Delays in getting access or information may push timelines back.

8.5 Results & Reporting

- SEO and AI visibility depend on third-party platforms (Google, OpenAI, Perplexity and others) that we do not control. No specific ranking, traffic or AI-citation result can be guaranteed. We do guarantee the agreed deliverables, honest work and full transparency.
- We use white-hat, search-guideline-friendly methods only.
- A monthly report is shared within 5 business days after each cycle ends. All working sheets stay accessible to you at all times.

8.6 Confidentiality

- All business data, logins and performance information are kept strictly confidential and used only for this project. Access is returned or removed when the engagement ends.

9. Next Steps

- Choose a package (we recommend Horizon).
- Confirm the start date and pay the 35% upfront for the first cycle.
- Share access to the website, GA4, Search Console and all 3 Google Business Profiles.
- Kick-off call. Onboarding and the audit begin the same week.

We look forward to working with you

Thank you for considering this proposal. Please reach out with any questions. We are happy to adjust the scope to fit your goals and budget.
